

Deerfield Community Center Playground Program 2020

Come Out & Play!

Outdoor play is important for kids! It improves attention spans, problem-solving skills, creative thinking, and reduces stress! And, it just so happens to be tons of fun, too. So let's replace swipes with slides; log-ins with lawn twister; and clicks with crafts and games. Ready? Let's do this. This program is for children entering grades K-6. Our staff will lead kids in planned activities each day, so come ready to play new games and make fun crafts!
